Support for the chosen activities

Here you justify the activities you have chosen. Try to describe the different parts concisely and clearly in the corresponding text field. You will be assessed on the basis of the assessment form. Each part must be assessed as sufficient before you can carry out the activities.

- 1. *If applicable.* Describe which previous activities you performed for IT Personality. State at least the theme they belonged to, the goal, the activities and the results achieved.**

the previous personality I choosed was the Hackathon by the sea. It was a 24 hours coding event which had different fun activities in between. The goal was working together with different student in a team to provide solution to a given problem assigned to each team. The objective of the hackathon was to design a voice-controlled system for an Arduino car, the system should be able understand voice command and translate them into action executed by the car. Some of the command include "move forward", "move backward", "turn left", "turn right", "stop". And at the end we got the car to move base on the voice command direction given

- 2. Give a short description of the chosen objective, the planned activities, the global planning, location and the people involved. (Note: appropriate for the chosen theme and in line with HBO level).**

The personality I choose is "NL basic 01 – Dutch A1 part 1"

The objective of this personality is pretty obvious as the name implies is about learning the basics of the dutch language, well I figured since am in new country I might as well try leaning the language

The course had 3 chapters

First chapter was mostly introdudction of the origin of the dutch

DUTCH...

Chapter 2 focused on

- Grammar mostly present tense
- Vocabulary : formal and informal
- Reading
- Listing
- Trying speaking mostly pronunciation of dutch words
- Some exercise and home work

Chapter 3 was continuation of grammar and vocabulary and exam preparation

The dutch classes were held every Tuesday at HZ campus in vliссengen the class was always from 4:15 to 5:15 PM

In total we were 38 who enroll for the course

3. Explain how the chosen activities:

a. ...contribute to achieving *your* goal.

Well it was very helpfully because I didn't know any word in dutch and spell words in dutch but now know basics of dutch can spell words though not complex words

b. ...contribute to your *personal* development.

Well personally it help me to actually start small conversation dutch and introduce my self in dutch when I meet knew people

c. ...contribute to your *professional* development.

Well I got to know they are some words which are okay when you use them with friends but its techinally not right when you use them when talking to elders or someone you don't know

4. Provide an overview of the expected hours distribution (1.25 EC = 35 hours) and indicate how you can demonstrate that you have actually worked these hours.

5. Indicate which products you will deliver as evidence.
